Providing Solutions for your Everyday Office and Mailroom Requirements

New advances in development and innovative design have come together to create a quality mailroom product that proves to be stylish and structurally sound. Our Mailroom Furniture has served the mailing industry for over 20 years and we are proud to introduce this elite product line that embraces a designer friendly attitude that will push mailroom furniture into the modern day. We are very excited to present this design oriented product that features trendy details and a new colour pallet that will compliment the traditional mail center of today and stay fashionable to serve the multi-functional mail center of tomorrow.

Design has greatly influenced the mailroom industry, but more importantly mailroom responsibilities have increased and are becoming high traffic areas. In order to accommodate these expanding mailrooms, an understanding of flow and design has become the foundation of our business. It is important to recognize the activities that occur within the mailroom to access how long each task will take to complete. Our furniture line is designed to organize the flow of mailroom activities to increase worker productivity and manage all mailroom applications.

Key Mailroom Benefits:

- Organize mailroom flow
- Maximize floor space
- Increase efficiency
- Raise worker morale
- Improve aesthetics

Expand your mailroom responsibilities to include: sorting incoming, outgoing and internal mail as well as manifesting documents, packaging, faxing, general storage, distribution of office supplies,
