

33" Standard Table Configurations

Our 33" standard tables are designed with four post legs and a steel apron that wraps around the underside of the table top. This apron increases strength and durability of the design and can accommodate our standard size laminate tops as well as oversized tops for special applications. The 33" table can be used as a stand-alone unit or as a corner station used with our larger standard mailroom tables. All standard tables have a fixed height of 29" and are outfitted with nylon glides that have a 1" adjustability to assist in levelling out your table.

Please note: that a storage shelf and sliding doors cannot be added to this standard table design and all standard tables have a fixed height of 29". When used in a corner layout all risers and sorters are placed on an angle for ease of accessing all mail slots. When ordering a corner unit please order MST-3333.
